WELCOME TO WALK TO SCHOOL 2014!
WEP in Schools looks to support schools and families in their aim to encourage active transport (walking to school). Last year more than 32,000 students from 303 primary schools took part in Walk to School. The event is designed to raise awareness of the physical, environmental and social benefits of active transport (walking to school).

In 2014, Walk to School will be held from 6 – 31 October. MHSF are encouraging our students and their families to walk all or part of the way to and from school during each school day throughout October. 

Children return to school on Wednesday 5th November, 2014.

If your children are not returning to Meadow Heights Primary School in 2015, please let the office know as soon as possible.

Welcome to Walk to School 2014!

Everyone at Meadow Heights Primary School is expected to bring nude food to school and take their rubbish home with them on the last Friday of every month. Disposal bags will be available at Sick Bay.

What is Nude Food Day?

Essentially, kids bring their food—nude!

This will reduce the amount of rubbish that goes into the bins, that goes into ground that pollutes our planet.

Thank you! EAT TEAM

MEADOW HEIGHTS PRIMARY SCHOOL’S GOT TALENT

An exciting event is going to happen at Meadow Heights Primary School on Friday November 7th. This event is a talent show—Meadow Heights Primary School’s Got Talent and will be held outside on the basketball court (weather permitting). There will be two shows: 9:30am - 11am and 11:30 - 1pm. Our Glee Club as well as some students in Years 2 to 6 have been selected to perform a range of acts. We urge parents and caregivers to come along and see the tremendous talent we have at our school.

See you there!

PROFESSOR BUNSEN - GRADE 5

In term 4 the grade 5 students are investigating “Kitchen Science”. This unit of work involves a look at the different ways we cook food and the type of ingredients that cause change in the food we eat when cooked. These experiments will explore the concepts of change and help them to distinguish between the nature of the processes of mixing, dissolving, melting, boiling and evaporating. On Friday the 10th of October Professor Bunsen visited the grade 5 students demonstrating exciting experiments with a WIIZ and a BANG!

GOODBYE TO OUR GRADE 6 PORTABLES WHICH HAVE BEEN WITH US OVER 20 YEARS.

LIBRARY corner

Just a reminder to Grade 6 students that all Library books need to be returned by tomorrow (31st October). Thank you.
